COMMUNITY COLLEGE SUMMIT  
Building Gateways to the Green Economy

A Green Technology Event

### Green Solutions for Tough Economic Times

Community colleges are a focal point for statewide efforts to create a green economy and workforce in California. The energy and interest surrounding the emerging green economy provides community colleges with a unprecedented opportunities to enrich the communities they serve.

### The Summit has been designed to respond to these trends by creating a forum for essential topics such as:

- \*Attaining savings from building and running green campuses.
- \*Development of green curriculum.
- \* Using green programs for teaching and apprenticeships.
- \* Campuses as models of sustainable practices for their community.
- \* Helping students capture green employment opportunities.

This two-day event will take place from October 6-7, 2009 at the newly-renovated Pasadena Convention Center.

Pre-Summit workshops will be held from 9:00 am to 4:00 pm on Monday, October 5th.

### Education Program

The educational program is intended to meet the diverse interests and purposes of those involved in participating and helping community colleges meet their purpose of Building Gateways to the Green Economy. The themes that will be addressed in presentations and workshops include:

- \* Green Buildings
- \* Energy
- \* Financing
- \* Curriculum
- \* Green Jobs
- \* Purchasing
- \* Operation and Maintenance

# THE CALIFORNIA COMMISSION ON DISABILITY ACCESS MAILING LIST REQUEST

The California Commission on Disability Access (CCDA) was created through the enactment of Senate Bill 1608 (Chapter 549, Statutes of 2008) whose role is that of an independent 17 member advisory body representing the Legislature and the business and disabled communities. The CCDA efforts are intended to facilitate business compliance with applicable disabled access laws, building standards and regulations, and most importantly, to reduce and, if possible, avoid unnecessary litigation. The CCDA role is diverse, and includes being an information center for the status of compliance with disabled access law and regulations; providing proposals and recommendations to the Legislature regarding legislation; conduct and publish studies relative to specific problem areas and develop recommendations, and report on the effectiveness of the CCDA efforts; and is tasked with the development of a master checklist for disability access for proposed use by enforcement officials and design professionals.
